

EAST-WJ 2016

The 6th East Asia Symposium on Technology of
Welding and Joining

8~9 Sep, 2016
POSCO Global R&D Center, Incheon, Korea

Co-organized by:

Korean Welding and Joining Society (KWJS)

Chinese Welding Society (CWS)

Japan Welding Society (JWS)

Sponsored by: **posco**

Symposium theme and topics

The objective of EAST-WJ is to gather Researchers and Experts from the Asian three countries to exchange the scientific and technological information in welding and joining field in order to encourage and inspire innovation and development in activities of welding and joining technologies. The following list provides the theme and representative topics of EAST-WJ:

Theme:

Smart Welding and Joining Technology

Topics:

1. Metallurgy of Welding & Joining
2. Welding & Joining Phenomena and their Sensing, Monitoring & Control
3. Simulations and Predictions of Welding & Joining
4. Micro-joining and Advanced Welding Process
5. Fatigue & Fracture, Residual stress and Distortion in Welded Structures
6. Smart Welding and Joining Technology

Symposium organization

Chairman:

Jongwon Yoon
President of KWJS, Professor
Donggeui University, Korea

Vice Chairman:

Yixiong Wu
Vice President of CWS, Professor
Shanghai Jiao Tong University, China

Fumiyoshi Minami
President of JWS, Professor
Osaka University, JWRI, Japan

Secretary General:

Juyong Park
Vice President of KWJS, Professor
Korea Maritime and Ocean University,
Korea

Vice Secretary General:

Xiaoyan Li
Vice Secretary General of CWS, Professor
Beijing University of Technology, China

Hidenori Terasaki
Director of JWS, Professor
Kumamoto University, Japan

Symposium Secretariat

Youngwhan Park
Director of KWJS, Professor
parkyw@pknu.ac.kr

Contact

Heeyong Hwang
Secretariat of KWJS
kwjs@kwjs.or.kr

Symposium venue

POSCO Global R&D Center (Incheon)
