# CONTENTS

**JOURNAL OF THE JAPAN WELDING SOCIETY**  
*Vol.78 No.7 October 2009*

## Essay
An Understanding of the Welding  
OSHIMA Kenji  
YASUDA Hideyuki  
NOGITA Kazuhiro  
YOSHIYA Masato  
NAGIRA Tomoya  

## Technical Information — Special Issue —
**Innovative Design of Steel Structures under Great Earthquake**

| A Preface | OHATA Mitsuru  
| Design Method of New Building System | HAMADA Masahiko  
| Anti-Earthquake Steel Structure building — Simple Structure is Best | ILJIMA Tooru  
| Overview of E-Defense and Research Projects for Earthquake Disaster Mitigation by Utilizing E-Defense | ABURAKAWA Masahiro  
| (Study on Complete Collapse of Building by Earthquake) | NAKAI Masayoshi  
| Structural Soundness Diagnosis by Ultra-dynamic Structural Testing System | UCHIDA Masayoshi  

## Lecture Note — A Class in Joining & Welding —

1. **Chapter 1** Welding Processes and Equipment  
   - 1-6 Joining of Plastic Parts  
   - SATO Isao  
2. **Chapter 3** Welded Construction and Design  
   - 3-6 Fatigue Strength of Welded Joints  
   - GOTOH Koji  

## Up-to-the-minute
University of Alberta Announces New Chair in Welding  
Adrian Gerlich  

## Spot Light
Egg of Welding  
MIYAGI Masanori  

## WELNET for Young Members
Report from Global Network Committee — Singapore AWF Symposium —  

## Calendar of Event

## Society Announcements

## List of JWS Company Members
