JOURNAL OF THE JAPAN WELDING SOCIETY

Vol.76 No.3 March 2007

Essay

New Concept Steel Structures with Welding Technique Innovation SHIGA Chiaki 3

Engineering Data Sheet MIZUTA Toshihiko 6

Technical Information — Special Issue —

Advanced Joining and Fabrication with Nanotechnology

A Preface { ABE Hiroya
KAMADA Nobuo 7
HIRANO Satoshi

A Novel Bonding Process using Ag Nanoparticles - Application to Electronics
Assembly as Alternative to Microsoldering using Lead -rich Solders- HIROSE Akio 8

Fine Electronic Circuit Pattern Formation on the Plastic Substrates NAKAMOTO Masami 13
by Metal Nanoparticle Pastes

Bio-Molecules Assisted Assembly of Advanced Nanoparticles { OHARA Satoshi
UMETSU Mitsuo 18
NAKA Takashi
ADSCHIRI Tadafumi

Nanocomposites Fabricated by FSP { MORISADA Yoshiaki 22
FUJII Hidetoshi

Fabrication of Three-dimensional Nanostructure using Femtosecond Laser Irradiation { KANEHIRA Shingo 27
HIRAO Kazuyuki

Serial Lecture Paper (2)

Electrochemical Reliability of Lead-free Assembly Joints TAKEMOTO Tadashi 32

Lecture for Practical Engineer

Weathering Alloy Index(*V*) and Corrosion Prediction Method for Unpainted Steel Bridges ... KIHIRA Hiroshi 38

WELNET for Young Members 42

Information from Global Network Committee — 3rd KWS-JWS Joint Symposium of Young Researchers —

Calendar of Event 43
